

Kabilan S

Software Developer

✉ kabilansenkuttuvan@gmail.com ☎ 9342803093 📍 Sivaganga

OBJECTIVE

Motivated and enthusiastic Computer Science Engineering student with strong foundation in programming and web development. Seeking an entry-level Software Developer role to apply my skills in building scalable applications and continuously learn new technologies.

EDUCATION

B.E. Computer Science and Engineering
Mahendra Engineering College, Salem

2022 – 2026

SKILLS

Programming: Python, JavaScript

Web Technologies: HTML, CSS

Database: MySQL

Tools & Platforms: Linux, Git, VS code

Other: Problem Solving, Debugging

PROJECTS

Brain Age Prediction System:

Developed an AI-based brain age prediction system that analyzes MRI brain scans and estimates biological brain age using a 3D Convolutional Neural Network (3D CNN). The system performs MRI image preprocessing, feature extraction, brain age prediction, risk level assessment, and brain age gap analysis. Explainable AI techniques were integrated to identify and visualize the brain regions influencing the prediction results. The application was developed using Python, Flask, HTML, CSS, JavaScript, MySQL, Deep Learning, and Grad-CAM.

Static Website Development

Designed and developed responsive static websites using HTML and CSS as part of web development practice. Created user-friendly page layouts, navigation menus, and visually appealing interfaces with proper styling. Implemented responsive design techniques to ensure compatibility across different screen sizes and devices. Focused on improving frontend development skills, webpage structure, and UI design principles. Utilized basic CSS animations, positioning, and layout concepts to enhance the overall user experience.

CERTIFICATES

- Full Stack Web Development

STRENGTHS

- Quick learner
- Strong interest in software development
- Good problem-solving ability
- Adaptability and teamwork

LANGUAGES

- English
- Tamil
